3 EASY STEPS

THICC ACRYLIC SEAM TAPE

Roof, Deck, Window & Door Flashing

THICC Acrylic Seam Tape is a 12mils thick flashing tape made of acrylic adhesive with ultra bonding strength to seal around roof, windows, doors, and other joinery seams as a secondary defense against water penetration and corrosion.

4in x 65ft • 33ROOF1027
6in x 65ft • 33ROOF1028

3 EASY STEPS

THICC FLEX TAPE

Waterproof Patch & Seal

THICC Flex Tape is an all-weather, flexible butyl patch and shield repair tape. It is a heavy, & aggressive sealing tape.

4in x 25ft • 33FLEX1023

THICC AF • ROOFERS

Multipurpose Hybrid Sealant

STRUCTURAL ADHESIVE - THE PRO'S CHOICE

THICC AF ROOFERS Hybrid Sealant & Adhesive is an excellent sealant/adhesive for many Commercial, Industrial, & Construction applications where a long-term, permanently flexible bond or seal is required.

• Adheres to a variety of substrates listed below and more:

- Glass
- Wood
- Kynar®
- Coated Substrates
- Ceramics
- Fiberglass
- Granite
- Marble
- Aluminium & Galvanized Metal EPDM
- EPS or Styrofoam™ Insulation
- Porcelain
- PVC
- Porous Surfaces

AVAILABLE COLORS: WHITE / BRONZE / BLACK / SANDSTONE

THICC AF • ROOFERS

Neutral Cure 100% RTV Silicone

STRUCTURAL ADHESIVE - THE PRO'S CHOICE

THICC AF ROOFERS Clear is a one-part, non-slump, moisture cure sealant that cures to form a tough rubber with long-term flexibility and durability. It is extremely resistant to UV degradation, yellowing, temperature extremes and most chemicals. It is a 100% RTV Silicone and will remain easy to dispense and tool even at cold temperatures.

It offers advanced adhesion to a variety of surfaces including porous substrates, vinyl, some plastics, fiberglass, metals, woods and more.

- Low odor
- UV Resistant
- Non - Yellowing
- Easy to dispense & tool even in cold temperatures

COLOR: CLEAR

THICC AF • BUILDERS

Hybrid Sealant

CONSTRUCTION ADHESIVE - THE PRO'S CHOICE

THICC AF BUILDERS Hybrid Construction Sealant/Adhesive is one component, moisture curing, high performance hybrid based sealing material. It is a new generation of isocyanate-solvent free sealant that brings together all the mechanical properties of polyurethane and silicone sealant.

- Adheres to an extensive variety of substrates
- Low odor
- Paintable
- Will cure when water & moisture is present
- Low VOC
- Non-sag & non-yellowing
- Solvent and isocyanate free
- Easy application

COLOR: WHITE

THICC AS • PAINTERS

Acrylic Sealant

PAINTABLE ACRYLIC SEALANT

THICC AS PAINTERS ACRYLIC is a flexible, one component paintable acrylic sealant. It is easy to use and easy water clean up. It can also be used for sealing of windows and door frame to masonry. Non-Sag and can be used on vertical or overhead joints. It has good adhesion, and remains flexible for extended periods after curing.

- Adheres to and can be used between:
 - Prefabricated construction elements
 - Assembly wood
 - PVC
 - Iron and aluminum joinery
 - Bonds to most common materials

COLOR: WHITE

THICC AS • SILICONE

Multipurpose Silicone Sealant

MULTIPURPOSE SEALANT

THICC AS SILICONE is a fully waterproof and mildew-resistant white sealant for use in and around the shower. It provides a permanently flexible silicone rubber seal which won't shrink or crack and can withstand temperatures from -67°F to 356°F (-55°C to 180°C). Excellent for sealing joints, gaps and cracks and replacing loose tiles. Ideal for creating a watertight bond between glass panels, aluminum or PVC shower frames and tiles, basins, walls and more.

- Adheres to a variety of substrates listed below and more:
 - Glass
 - Tiles
 - Ceramics
 - Painted or varnished surfaces
 - Metal
 - Most plastics

AVAILABLE COLORS: WHITE / CLEAR
